FRIDAY JUNE 8th 1946

NUMBER 7

District Loses Oldest Man— Funeral Last Sunday

Last Thursday evening near 5 p.m. Frederick Herman Schneider, father of Paul, Otto and Mrs. Herget of Stirling passed quietly away at his farm home north and east of Raymond at the age of 97. He would have been 98 next September and is believed to be the oldest man in the district.

With his family he migrated to Utah and then in 1903 settled in Raymond where he has lived since that time and raised his family. One married daughter passed away in Wyoming about four years ago, and his wife passed away in 1925. The remaining three children were at the funeral. Up to the time of passing deceased has retained possession of all his faculties and was able to read without glasses. He had never mastered the English language, and because of that did not mix much in public, but he was respected and admired by all who knew him.

Funeral services were held Sunday with Bishop Palmer in charge and Jos. McLean conducting the choir with Mrs. Dahl at the organ. Hymns by the choir were "Oh My Father," "Farewell All Earthly Honors" and "Shall We Meet Beyond the River" and Mesdames King and Walker sang "Goodnight and Good Morning."

The opening prayer was by Elder John P. Salmon and the benediction by Elder Jos. Nilsson.

Speakers were Elders J. Walker and C. E. Alfred both of whom had been acquainted with deceased during his residence in Canada and paid high tribute to the integrity and devotion of deceased to his family and his church. He had left his homeland because of persecution and had done his full share in pioneering this new country, being always ready to take his share of the load in any community betterment or improvement.

Interment was in the family plot in the local cemetery beside his wife, and a large cortege followed the hearse to the cemetery.

DROP REPORT

Rain on Saturday again on Monday and light showers have kept things soaked up again for nearly a week and has kept farmers out of the fields. The moisture is very welcome after so many years of scanty rainfall and the grass, hay and pasture lands are really beautiful to look at this year.

Crops and gardens are growing good despite the wet, cool weather and wheat seeding is finished and considerable of the coarse grains and lay fields are planted, although there are a few farmers who are just ready to commence this work.

Beets and early seeded wheat are making a lovely showing. Dry warm weather would be welcome to permit of cultivating and thinning of the beets and to allow for the rest of the gardens and crops to be put in. However, no one is complaining as we have wanted moisture for a long while.

No Board of Trade meeting was held Wednesday as the Town Hall had been previously spoken for by the Sugar Factory Union and there was also a decided lack of attendance.

Forster Plan now to see Spencer Tracy in his finest picture "The 7th Cross" playing at the Capitol Theatre TONIGHT and SATURDAY. Please come early Saturday. First show starts at 7:15 sharp.

Mr. and Mrs. Angus Anderson of New Dayton were Raymond visitors Wednesday, when they brought their little boy to the Doctor to have his finger dressed after it had been banged by some cogs in his father's workshop.

Vote As You Please But Vote

This is the slogan of Canada's Unions and one other question that will demand an answer. Canadian voters have the power in their ballot to say who shall pilot the ship in Canada's future, this organization representing the Board of Trade, Chambers of Commerce and like organizations is urging Canadians to get out and vote and use their franchise.

Liberty election, civic, Provincial and Dominion, there are from 25 to 50 per cent of the voters who do not use their franchise, and yet this group would be the first ones to cry to heaven if they were not on the voter's list or if they were refused a vote at the polling booth. We should consider what the franchise has cost in blood, sweat and tears, and use our vote to help maintain and perpetuate the freedom that has been so dearly bought.

This election, Canada stands at a critical position. We are at a point where level headed, far-sighted policies of administration are needed. Thousands of returned men in hospitals and rest homes needing and will need for months to come, the best attention science can provide, and the friendly ministrations of individuals and organizations to get them back to health, and then these thousands with tens of thousands of other returned men will require rehabilitation into civilian life and activity. There will be a real problem facing the government of placing these thousands, and not displacing the thousands of men and women now working and keeping the wheels of industry turning.

We are going to have to meet the questions of state medicine, state schools including university for all who want it, state hospitalization, compulsory military training and a equipment.

Remember Spencer Tracy in "7th Cross" at the Capitol Theatre showing Friday and Saturday.

FIRE BRIGADE ORGANIZED

The local fire brigade has recently been reorganized and drills will be held to acquaint the members with their various duties. The following officers have been selected.

Fire Chief—W. S. VanOrman.
Asst. Chief—Karl Wilde.
Secretary—Jerome Platt.

There are 13 members in the Brigade and they are arranging for a visit from the Fire Chief of the Lethbridge Brigade who is going to lecture them on fire fighting and equipment.

Raymonds Annual Stampede On July 2nd. & 3rd.

SOCIAL CREDIT RALLY

An enthusiastic Social Credit Rally was held in the Opera House Tuesday evening when John Blackmore, sitting member for Lethbridge Constituency was present and addressed the meeting.

His subject followed the lines of his other campaign speeches speaking on the Bretton Woods conference and the San Francisco Conference, criticizing them because they were not removing the causes of war nor getting to the core of the problem. While all political parties were striving for the same end, he stated that Social Credit held the only practical solution to the trouble with its advocating debt free money so that problems of production, distribution and consumption can be kept in balance and all causes of want and fear removed.

He said that during his term of office he had tried to solve every problem that had been sent to him and that he was glad to report success in 36 per cent of them. Concluding he said "If I am returned I will continue to do my best, in the interest of Lethbridge constituency and its people."

A question period followed the singing of the National Anthem and then a free dance was held and during this time a quilt was drawn for which was won by Mrs. Ira Mc Bride, hot hamburgers, punch and pie was sold and the close of the dance at midnight brought to a close a very successful evening.

MAGRATH CANNERY OPENING

The Alberta Canneries will have their formal opening Friday June 29th, at 3 p.m.

A fitting programme will be observed at the plant, and the public are especially invited to attend and inspect the plant on this date.

Advertising is going out this week for Raymond's Annual Stampede and Race Meet to be held Tuesday and Wednesday, July 2nd and 3rd and an added attraction this year will be the Victory Shows Midway from Edmonton, which will be in attendance both days and which promises plenty of fun and merriment for old and young.

The prizes have been increased this year. Clarke Lund will be Arena Director and one of the saltiest bunch of mustangs and bucking steers ever herded into the chutes will be there to do battle with the cow waddies. Entries have been received from many of the cowboys of Northern Montana and all of Alberta and with the knee high grass for the stock to feed on this summer, riders and ropers will have a big arm full of horse and cow when they try their luck.

A parade will start off the activities of Dominion Day, July 2nd, and a big dance on the 2nd Ward Pavilion floor each night will ring down the curtain on the big event of Southern Alberta.

Invite your friends to come and visit you for the Big Stampede.

Read the Capitol Theatre's ad in this issue. Three of the screen's finest features showing in one week.

WEDDING BELLS

LITCHFIELD — PIERSON

Bert, son of Mr. and Mrs. Floyd Litchfield serving in the Canadian army, stationed in Toronto, and Miss Pierson, whose home is in Sandy Utah, near Salt Lake City and who has just completed a two year's mission in Eastern Canada, were married Wednesday afternoon in the Alberta Temple, Cardston, with Pres. Edw. J. Wood performing the ceremony. The bride's mother and the parents of the groom besides a number of other relatives witnessed the ceremony & joined in congratulatory to the happy young couple in the upstairs room of the Temple after the ceremony.

In the evening a wedding supper was served at the home of the Hon. and Mrs. Solon Low, who have recently moved to Cardston from Edmonton, and a large number of the family and a few friends gathered there for the repast and a social evening.

RESTALL — NILSSON

At the 1st Ward Church last Friday evening, Eudora, youngest daughter of Mr. and Mrs. E. U. Nilsson of Raymond, and Kenneth Dunce Restall, son of Mr. and Mrs. B. A. Restall of Victoria, B. C., were married with Bishop Hicken performing the ceremony. During the ceremony W. W. McMullin sang "Ah, Sweet Mystery of Life" with Mrs. Emma Dahl at the piano, who also played the wedding march.

After the ceremony a reception was held in the Recreation Hall when seventy-five guests sat down to a lovely supper, the bride's table being centered by a three-tiered wedding cake.

The happy young couple are honeymooning at Qualicum Beach, B.C., and will later take up residence at Comox, B.C. We join with their many friends in extending best wishes for a long and happy married life.

PAUL EVANS CABLES HOME

Mrs. J. W. Evans received word last week that her son Paul, who had been reported missing in action and unheard from for several months was safe in England, and on Monday this week the family received a wire from Paul himself that he was in England and was safe and well. We rejoice with the members of the family in the news of Paul's safety after such a long period of silence.

LIONS ELECT NEW OFFICERS

The regular meeting of the Raymond Lions Club was held in the 2nd Ward Hall Monday, June 4th with Pres. Mutt Ralph in the Chair. "Oh Canada" was sung and prayer offered by Lion Rulon Dahl.

Community singing was enjoyed under the leadership of Joe McLean with Casey Veen at the piano.

It was announced by Sec. D. Rolfsen that the District Convention was to be held in Banff June 14 and 15 and 16.

The following officers were elected for the coming year:

President—Karl Wilde.
1st Vice—Melvin Hansen.
2nd Vice—Bert Powselson.
3rd Vice—Frank Ball.
Sec. Treas.—A. M. Bradley.
Lion Tamer—Gerald Gibb.
Tail Twister—Bryant Houlinger.
Directors—Dr. Walker, Thomas Mendenhall, S. M. Sanford and Vel Hoggie.

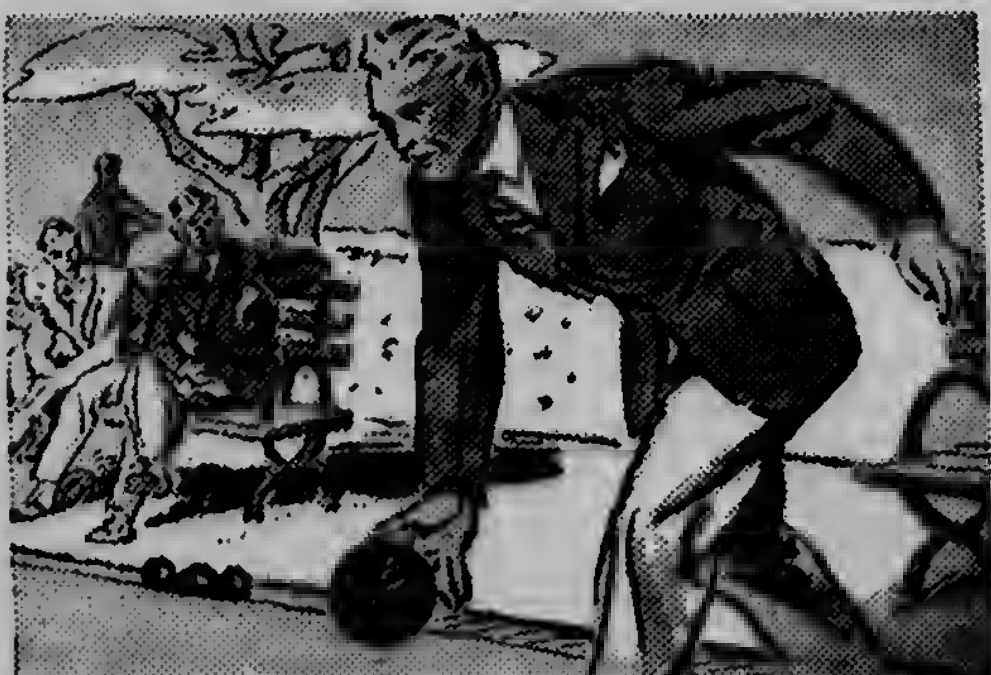

The Club decided to present Sec. Dean Rolfsen with an appropriate gift for his 4 years service with the Club. A hearty vote of thanks was also suggested by Lion Frank Ball for Mutt Ralph and the good work he had done as President during the past year.

The meeting closed by the singing of the National Anthem.

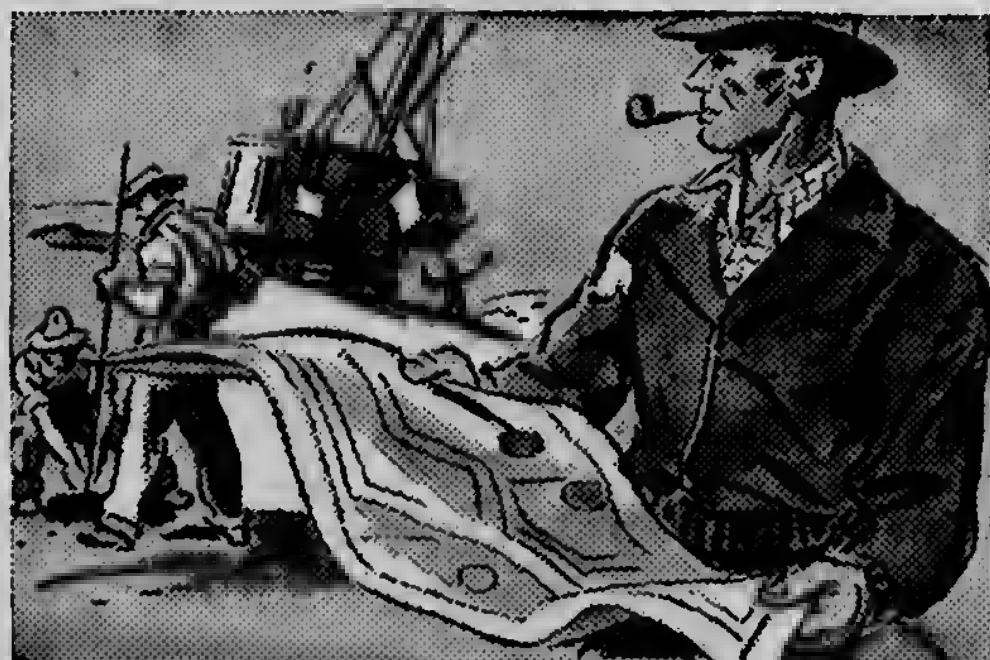

TOM is in the pink . . . DICK has retired HARRY will go places

Tom knows something about stormy weather, but he feels in the pink and his mind is at ease because his life insurance, which protects his loved ones, has weathered the strains of war and epidemics. The reserves behind his policies are regulated by law and so stand guard that even in times of the gravest stress he knows he is secure.

Dick knew nothing about life insurance reserves when he took on his first policy as a young man. But now that he has retired, he knows that the security he enjoys comes largely from the monthly income provided from his insurance—protected by reserves accumulated from his past premium payments.

Harry is an up-and-coming fellow who needs only opportunity to make good. He may not know it, but his own life insurance and the premiums of several million others will keep providing him and others with opportunities for years to come. Life insurance funds are invested in undertakings from coast to coast that provide employment for multitudes of people.

LET NO ONE MISLEAD YOU!

Life Insurance policy reserves represent premium dollars accumulated of interest for policyholders by life insurance companies as the necessary provision against the day when policies become claims by death, maturity or surrender. Let no one mislead you about the nature of these funds. They are NOT "surplus funds" nor do they represent "profits" in any sense of the word. Policy reserves are the exact measure of the total funds which must be held for policyholders, to be paid to them when due.

It is good citizenship to own LIFE INSURANCE

CARELESS SHOOTING.

Boys and girls, big and little, be careful with those 22 rifles when and parents are held responsible for you are after gophers. With the any accident or damage caused by mismanagement on the selling of small minors with rifles of any kind. The arms ammunition, people who have careful all the time, and if the boys to shoot are really having a field are not able to handle a gun safely, day now that shells are obtainable better either lecture them to be care. However, there is a danger element ful, or better still go with them, that must not be overlooked in con null they learn how to enjoy their action with this practice. The shells shooting without being a menace to are labelled, most of them, "danger ous within one mile." This should be sufficient to cause anyone to think carefully where the gun was pointed before firing.

Last week a bullet from someone's gun crashed through a window, sailed across the room and imbedded its self in the wall. It sailed right past the machine, almost within line of anyone that might possibly have been sewing. Fortunately no one was in the room.

No one wishes to curb the pleas- ure of anyone, and we are sure

that no one with a rifle wishes to endanger the life of anyone or anything. Ordinary caution should be used and ordinary caution would do away with any real danger.

Don't point a gun toward a building. Move to one side or the other of your target so that no buildings or livestock are in your line of fire. If you shoot at anything in a free country, be sure that the trajectory of your line is such that it will not encounter any buildings or parts of buildings. Don't just shoot. Have a target and before you fire be sure what is in the line of fire from your gun.

A gun may be confiscated for any reason of carelessness in its handling. Raymond Cartage teams unloaded a car of cement for the Mercantile on Tuesday of this week.

Two duck privates paused by the roadside to look at a dead animal. "It has two stripes, what is it?" said one.

"That settles the question," said the other. "It's either a skunk or a corporal."

KNOW the TRUTH about the C. C. F.

Canada Packers say: "Livestock prices have attained levels that cannot be maintained after the war."

THE C.C.F. BELIEVES THEY CAN AND MUST BE MAINTAINED.

Seven to eight thousand of our boys will soon be home looking for jobs. 1,300,000 War Workers will have to find other employment. If they find no work then Canada Packers are right and farm prices will go down.

But the C.C.F. believes we must have F.M.A., employment after the War, then we can maintain present Farm Prices. Make your choice on June 11th. VOTE C.C.F.

Inserted by the Lethbridge Federal Constituency Association, in the interests of W. W. SCOTT, C.C.F. Candidate.

JUST PLAIN SENSE!

The Canadian people have made a magnificent contribution to the common victory in Europe.

The Liberal administration can say with honesty and justice:

This is the Government which has directed Canada's war effort at home and abroad.

This is the Government which during the war worked out a program of full employment and social reform.

These things are now a matter of record and of common knowledge.

On the basis of its record the choice of Prime Minister King's party to form the next Government of Canada is a matter of just plain sense!

Let the Liberal Government finish its work

GROWING SMALL FRUITS

We are pleased and proud to announce the publication of a bulletin entitled "Growing Small Fruits in the Prairie Provinces." It is illustrated with a series of admirable photographs most of which are by courtesy of the Division of Horticulture, Dominion Department of Agriculture.

The subject matter was written by Mr. W. R. Leslie, Superintendent, Dominion Experimental Station, Morden, Manitoba. It deals with recommended varieties, cultural and harvesting methods, pests and diseases of strawberries, raspberries, currants, gooseberries, etc. Tree fruits, such as apples, plums and cherries, are not included; but will, we hope, be the subject of another bulletin to be published in the not too distant future.

Copies are available, free of charge, to farmers, and rural school teachers and pupils in the Prairie Provinces. They may be obtained through local Line Elevator agents, or from Line Elevators Farm Service, Winnipeg or Calgary.

A Correction

In our article, "Production Objectives," published on February 15th, we endeavored to summarize the figures released by the Dominion Department of Agriculture following the Dominion-Provincial Conference. Under "increases," we quoted "cattle, 8%; calves, 10%." One of our correspondents points out that these particular figures relate to increased marketings rather than to production. He thinks that "the owners of cattle are generally of the opinion that production has reached a level in the prairies, where difficulties could easily arise—if extensive drought should occur."

UNDER HAT: PETE

Reading from left to right in the above picture: ALCATRAZ GERBEN, a champion Holstein, owned by the Hays Ranch at Turner Siding, near Calgary, and PETER WHITT. All L. CBC Farm Broadcast Commentator for the Prairie Region. On March 24, Alcatraz broke the world's record for butterfat production with 1,409 pounds of butterfat in 365 days. Pete Whittall called to pay his respects to Alcatraz and to record a broadcast for the Farm Department. On his visit he also acted as guest commentator for an actigraph broadcast arranged by Station CFAC, Calgary and, incidentally, kept his hand in at an old farm chore (see above).

Pete David Anderson, son of Mr. David, nine year old son of Mr. and Mrs. J. H. Anderson arrived and Mrs. Jesso Wido was injured home over the weekend from the Sunday evening last when he fell from his bicycle. His legs, from his bicycle and was taken to which were badly wounded in Italy the Galt Hospital, Lethbridge for are healing slowly after months of treatment.

Rotarians on Monday had as their guest P.O. C. P. O'Brien, local boy, who is in the Army, returned home after two and a half years in Britain flying Halifax in the bomber command. Clayton was a through Montana, Idaho and Utah Navigator and he told several interesting with relatives and friends, telling experiences and answered a Alvin says the country right through great many questions. Irene and is enjoying a rainy spring and Alvin had the usual good meal grass is knee high all along the ready and absentees from the Club roads, even in the snowdrifts. Make it a point to be there next week boys.

Did you know that THREE of Screenland's top pictures are playing at the CAPITOL next week See the BIG AD in this issue and arrange to see every feature.

The Stake Missionaries met at the home of Mr. and Mrs. Cyril Layne on Sunday evening after church with Elder Alma Betts who left this week for a long term mission to Eastern Canada as a special guest. A very interesting meeting was held in a discussion of some very interesting experiences he had while living in the Many.

We Need A PROGRESSIVE POLICY

The time is long past for policies of indecision. Wavering will get us nowhere.

We need to face our problems with determination, as a United Canada, with the positive programme of reconstruction to which the Progressive-Conservative Party is dedicated.

Vote PROGRESSIVE-CONSERVATIVE for

PHIL BAKER

Your Bracken Candidate

Prosperity For All Through Constructive Development

Spendthrift policies and plain greed have played havoc with the vast estate of the Canadian people. The incalculable wealth of our forests and fisheries, of our soil and mines and water, has been ruthlessly exploited. To realize immediate profits, forests have been laid waste, fisheries have been driven to the verge of ruin, the soil has been robbed of its rich fertility and mines have been wastefully plundered. Today, the devastation wrought by spring floods, drought and soil erosion spreads unchecked and ignored throughout the land . . . slowly but surely sweeping away the wealth of Canada.

A CRIME AGAINST THE NATION

The Progressive Conservatives are resolutely determined to put an end, immediately, to all wasteful exploitation of the Canadian people's vast national heritage—held in trust for them by the Government. Any violation or betrayal of that trust is an unpardonable crime against the nation. Our birthright must be developed and conserved for the greater good of all Canadians—now and in the future.

AN AGE OF PLENTY

To-day, Canada stands on the very threshold of an age of plenty. The Progressive Conservatives realize that the challenge of the future can only be met collectively, in a spirit of wholehearted co-operation, between individuals, between groups and associations, between Provinces. It is the very core of our progressive, unifying, wide-awake policies that the GOVERNMENT SHALL FULFILL ITS RESPONSIBILITIES TO DEVELOP AND IMPROVE CANADA'S NATIONAL ESTATE.

"A wise national administration," says John Bracken, "must develop and expand the national assets so that they will yield greater wealth for all Canadians . . . Work must be

productive of future economic benefit so that the labour of to-day generates profitable employment for to-morrow and all time to come."

To These Measures John Bracken is pledged—

- Assurance of full employment at fair rates of pay.
- Maintenance of the Canadian tradition of individual initiative, individual enterprise and opportunity.
- Freeing of economic activities from bureaucratic controls as soon as possible.
- Restoration of the supremacy of Parliament.
- Efficient development and utilization of the resources of Canada.
- Nation-wide, modern housing and immediate action on slum clearance.
- Financial assistance from the Dominion to the Provinces for the constructive development and conservation of our natural resources will receive top priority at Dominion-Provincial conferences to be called immediately after the election.

The fire hose was pressed into service Thursday morning to wash the accumulation of mud off the sidewalks. It made a big difference too.

Mr. and Mrs. A. J. Hancock and Mr. and Mrs. S. I. May were at the Temple Wednesday afternoon. Mr. and Mrs. Hancock were celebrating their 17th wedding anniversary. Aside from the water on the roads, travel is not bad but an amphibious car would be the ideal for such weather.

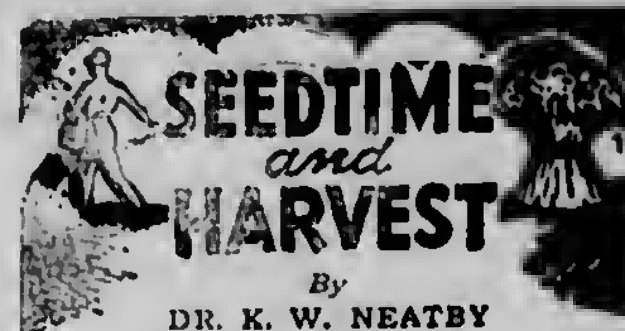

According to the Provincial Crop Report excessive rains throughout most of the Province have delayed seeding and farming operations, although the moisture is decidedly welcome and beneficial. One exception is the Edmonton district where gardens planted three weeks ago have not shown above the ground yet. Cardston reports seven inches of rainfall since the first of May.

IN MEMORIAM

Winnipeg, Manitoba

More About Extension

Education, including so-called extension, is a function of provincial governments. Agricultural experimentation and research is mostly in Dominion Government hands.

It is necessary to assume, at present, that the administrative features of agricultural services will not change materially. It might be advantageous to combine the extension services of universities and provincial departments of agriculture. There are many arguments for placing experimental farms under a provincial administration with headquarters at the provincial university. On the other hand, there is much to be said for an expansion of extension and educational services through channels of the Dominion Department of Agriculture. The possibility of any such radical measures, even if they are desirable, is remote.

Two ways, at least, of improvement are open to us under the existing setup. One is the expansion and improvement of present services, and the other is the co-ordination of services both within and between provinces.

The absence of a direct administrative connection between research and experimental institutions, chiefly Dominion Government and universities, and the extension services, chiefly provincial, is a serious weakness. As a result, many Dominion Government experimentalists have, often in spite of themselves, been successful extension workers. We suggest that provincial extension services should engage specialists in plant diseases, soils, insects, etc., to work with and through the agricultural representatives.

Our second proposal is to the effect that annual or semi-annual Prairie Province extension conferences should be held, so that workers might benefit from an interchange of ideas and that our left hand may know what our right hand is doing.

Social Suicide

Excerpt from Article in "News Week, April, 16th, 1945."
U. S. Companies with plants in Canada have a substantial stake in the coming Canadian Federal Election. If the Progressive-Conservative Party wins, U. S. firms that expanded during the War may profit considerably.

It is estimated that firms in Canada have over-depreciated their plants for TAX purposes by about \$1,500,000,000 under present laws governing excess profits and dividends. This money is in a tax not the Government will pull in sooner or later.

If the Progressive-Conservatives get in, the law regarding either excess profits or Company Dividends, almost certainly will be altered. If the Socialists Cooperative Commonwealth Federation wins, present laws will be retained for certain. If Liberals are returned it is possible they won't be altered very much.

Is it any wonder they can afford to spend Millions to protect Billions. If the C.C.F. are elected, you may rest assured the Manufacturers will pay every dollar of TAXES they owe just as you and I have paid in Income Taxes as they became due. The bonds we purchased and the Taxes we paid made these excess profits possible for the Manufacturers of Canada.

Vote C.C.F. and assure that Monopolies pay TAXES the same as private individuals.

Don's stand on the side lines by voting SOCIAL CREDIT or L. P. P. They have no chance to form a government.

This time vote SCOTT "X". Help the Farmers and Workers to elect a Government that will not be on the side of the fifty Big Shots.

BRITAIN CARES FOR PRISONERS OF WAR

The following article from the magazine "The Canadian Prisoners of War Relatives Association" shows what the people of England are doing for the R.C.A.F. boys who have been liberated from P.O.W. Camps in Germany. Mr. and Mrs. Wm. Selman, & Mr. and Mrs. T. W. Meldrum have received letters from their boys, who were prisoners of war, and the boys are now touring the British Isles and expect to arrive in Canada about the end of May. Following is the article:

According to a Reuters despatch, when the 2,500 Canadian airmen who have been prisoners of war in Germany are released, they will find a warm welcome waiting for them in England, organized by the R.C.A.F. a forerunner of the one they will receive in Canada.

They will be provided with a double ration of food while convalescing in Great Britain as well as new clothing.

Entertainment will not be lacking at the south coastal town of Bournemouth, the headquarters of the "Welcome Project."

Liberated prisoners will recover their personal belongings at a reception and distribution centre, and finally they will be given two weeks furlough with free rail transportation to anywhere in England, Scotland or Northern Ireland.

Pte Harold McBride spent the week-end at home and returned Sunday night to Col. Belcher Hospital at Calgary where another operation is to be performed.

About Insects

The bulletin on small fruits, announced in our last article, has a twin brother named "Field Crop Insects in the Prairie Provinces." This last publication has been prepared in response to a very wide-spread demand for reliable information on the identification and control of insects that thrive at the expense of field crops.

Line Elevator Companies esteem it a great privilege to offer this bulletin to Prairie farmers and rural schools. The information is up to date and authoritative, having been prepared by specialists in the laboratories of the Division of Entomology, Science Service, Dominion Department of Agriculture and in the Department of Entomology, The University of Manitoba.

This bulletin is not a textbook, but merely a handbook. It will serve as a useful guide to the most destructive of our field crop insects, and to the best methods of control at our disposal. In all, there are forty-one excellent illustrations of which eight are in full colour. Aside from its practical value in connection with crop protection, this publication provides some very interesting reading.

Copies are available, free of charge, to farmers, and rural school teachers and pupils in the Prairie Provinces. They may be obtained through local Line Elevator agents, or from Line Elevators Farm Service, Winnipeg or Calgary.

PROUD GRANDPA: D. C. Gaskin, of Windsor, vice-president and general manager of Studebaker Corporation of Canada, and year-old Caroline Anne, his grand-daughter, hit it off well on their first meeting at the Canadian Pacific Railway's Windsor Station in Montreal when he met her and her mother on an R.C.A.F. wives' train. They are waiting the arrival of F/L. V. M. Gaskin, overseas with the bomber command since 1941.

The Progressive Conservative Association of Lethbridge

To Electors of Lethbridge Riding:

Wheat, Beets, Cattle

I cannot ask you to come to meetings—it is impossible for me to meet each one of you before Election Day. If I could meet you, I would talk to you about WHEAT -- BEETS and CATTLE, tell you what John Bracken knows and says about these three major commodities.

First of all about WHEAT -- we must keep the WHEAT BOARD--(no more control by the Grain Exchange.) Years of work, the help of the late John I. McFarland -- John Bracken and the farmers of Western Canada gave us the BOARD SYSTEM. Bracken will continue the WHEAT BOARD SYSTEM.

SUGAR BEETS -- You know our position today. Only through continuous effort on the part of ourselves, can we hope to preserve or improve the Beet industry of this country. John Bracken has given me his personal word that the beet growers will have a SQUARE DEAL and the industry will be protected against unfair competition.

CATTLE -- Our Wheat and Sugar Beets lose their real value unless this industry prospers. The natural market for our surplus cattle is the United States.

Progressive Conservative Candidate

Mrs. Maurice Cooper spent part of last week here looking for a little more week-end visitors in house and returned to Picture Butte at the week-end.

LaMonte Palmer, recently discharged from the R.C.A.F., went to Calgary Monday to enter school there for advanced training.

Mr. and Mrs. Billie Price of Picture Butte were week-end visitors in Raymond with relatives and friends.

Barbara Card, Elmo Hatfield and Bert Hall were home over the week-end with their oil trucks and pulled out Sunday night for Calgary.

NOTICE

TAKE NOTICE that the Mayor and Council of the Town of Raymond propose passing a by-law, after two weeks from the date of this notice, to close for school purposes:

(1) 1st street west between the northern boundary of 1st street north and the southern boundary of 2nd street north.

(2) Columbia Avenue between the northern boundary of 1st street north and the southern boundary of second street north excepting the intersecting lane.

Should any person object to the passing of this by-law he is required to state in writing, addressed to the Secretary-Treasurer, the nature of objections, such notice to be received within two weeks from the date of this notice.

Dated at Raymond this 31st day of May, 1945.

W. L. Jones, Secretary-Treasurer, Town of Raymond.

NOTICE

In the Estate of JOHN LARSON, late of Raymond, in the Province of Alberta, Farmer, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named JOHN LARSON, who died on 14th day of March, A. D. 1945, are required to file with the undersigned Solicitor by the 7th day of July, 1945, a full statement duly verified, of their claims and of any securities held by them and after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed or which have been brought to her knowledge.

DATED this 22nd day of May, 1945

WARRREN L. JONES, Raymond, Alberta.

Solicitor for Sarah Alice Larson, Administratrix.

PEERLESS PETE represents a drop of Peerless Motor Oil. His adventures—as seen by our artist—will take Pete all the way from the time when B-A specially selected him from their own wells, through the famous 5-point Clarkson process, up to where alloyed against wear, he does a better job in your car, truck or tractor! Watch for more adventures of Peerless Pete!

4. PETE GETS A BEAUTY BATH

Catalytic Clay Filtering removes the last remaining vestige of impurities which might cause engine failure... gives Peerless Motor Oil its brilliant, sparkling, amber colour.

5. PETE GETS A NEW SUIT

"Alloying" protects the molecules of Peerless against lubricating oil's natural tendency to oxidize forming harmful deposits in the engine of your car—protects against wear!

1. PETE SWEATS IT OUT

High Vacuum Distillation... removes all asphalt, "heavy cuts" oil into different S.A.E. grades giving easier starting in cold weather lower oil consumption in hot weather!

2. PETE GETS A SHOWER

Furfural Treating scrubs and washes out carbon fractions useless for lubrication. It is chiefly in this process that B-A Peerless Motor Oil gets its unusually high V.I. (Viscosity Index).

3. PETE GETS CHILLED

M.E.K. Oil-Waxing, at sub-zero temperatures. This removes all the wax, which in our Canadian climate, may adversely affect the "pour point" of lubricating oil in cold weather.

SUMMER DRIVING TOUGH ON OIL

In the summer you drive longer distances more often... put more strain on the lubricating oil in your car's engine. It will pay you this year to switch to Peerless Motor Oil! "It's Alloyed!" against the effect of heat. Drive in to the sign of the big B-A and ask for Peerless Motor Oil!

"It's Alloyed!"

THE BRITISH AMERICAN OIL COMPANY LIMITED

MORE REPAIR PARTS FOR FARM MACHINERY

On July 1st, all restrictions on the import and manufacture of repair parts for farm machinery and equipment are to be lifted, the War time Prices and Trade Board has announced. It is likely that, as war contracts terminate and raw materials are in better supply, additional quantities will be available for farm machinery manufacture. At the same time, the new order maintains machine production at about 10 per cent of the 1944-45 rate, although previously a reduction of about 27 and one half per cent had been expected.

Quotas in the past were split between Eastern and Western Canada but this feature has been eliminated and equitable distribution is to be assured for all districts. In addition to new machines, repair and other parts which are made available to farmers, the Department of Veterans Affairs is being provided with 17,923 tons of farm implements for distribution under the Veterans' Land Act.

The wet season has kept our streets and walks in a nice soft, pliable condition. The grader has spent about three days out of every week blading the streets and after they finish it rains and then they start again.

Please!

See that your Ice Cream Mix containers are labelled on the... can and also the lid. This is a Government Requirement and also assists in avoiding errors in distribution.

THANK YOU

Yours for Service

ICE CREAM MUST BE TAKEN OUT THE SAME DAY IT IS BROUGHT IN

JOBS ASSURED BEFORE DEMOBILIZATION

A Square Deal for Veterans Assured by Progressive Conservatives

The very first clause of the Progressive Conservative plans for the re-establishment of Veterans, adopted at the National Convention of December, 1942, is as follows:—

DEMOBILIZATION

In carrying out the demobilization of Canada's Armed Forces the primary consideration should be the interest of those who have served. Demobilization should be based on the principle that members of the Armed Forces should not be discharged until their economic security is assured by placement in gainful employment or by assisted training and education to that end.

Here, in this simple statement of progressive, realistic policy is the only true solution of the fundamental problem by which every ex-service man and woman is faced. It is the only assurance of a square deal for all veterans. It is the very basis of the Rehabilitation Policies of the Progressive Conservative Party. No veteran will be discharged against his will until he is assured of a decent livelihood.

"Platitudes will not fill empty stomachs," declares John Bracken, "nor generalities provide jobs for those who have fought, nor words of declarations about sacrifice ease the load of the widows and children whose husbands and fathers gave life itself that we might live in peace and security."

Throughout the war, Canadian service men and women have had their fill of platitudes and generalities.

Let our veterans now ask themselves this question. Does the spirit of political partisanship which the King Government has consistently manifested in time of war, offer any assurance of a square deal for veterans in time of peace? Does the iniquitous manpower policy which split Canada apart reflect the right spirit? Remember in war, as in peace, political policies infallibly indicate party principles.

It is significant that more than half of the Progressive Conservative candidates are service and ex-service men. No other party can even approach this record. These men know that no other party has such realistic and comprehensive plans for rehabilitation. They know that the Progressive Conservative Party is the service men's party.

They know that John Bracken, father of three sons on active service, understands the problems, the hopes

and the fears of veterans.

They say, with John Bracken

"The cost of winning the war and the cost of re-establishing those who fought in it, is one and indivisible. In the plainest words at my command, I say to you that nothing short of full-time gainful employment for every man and woman who has worn the Canadian uniform will be acceptable. Every man and woman must be given an opportunity to earn a good living. If existing enterprise cannot do this, the State must, and will."

These service and ex-service candidates, with John Bracken, pledge themselves that, under no circumstances, will existing benefits to veterans be lessened. On the contrary, they will be increased and extended.

They, with John Bracken, pledge themselves to revise an out-moded pensions act, to humanize its administration, to eliminate red tape and inexcusable delays. Pension rates will be reviewed at once and increased to bring them in line with higher living costs.

Under a Progressive Conservative government, recorded condition of personnel on enlistment will be accepted as sufficient proof in determining disability pension. The veteran will be entitled to the benefit of the doubt.

The "first in, first out" principle will be followed on demobilization—with a job at decent pay assured to the veteran when he returns to "civvy" street.

In the words of our leader, we of the Progressive Conservative Party, "except the challenge to demonstrate to you who fought that you shall not be handicapped in days of peace because you responded to the nation's call in days of war."
